

WALKER USES
STRONG LANGUAGECALLS SUPREME COURT "COT-
TAGE OF JACKALS."

Head of Illinois Miners Resents Declaration of Tanner Act as Unconstitutional at State Miners' Meeting—Duncan McDonald Answers Critics.

Springfield, Ill., Feb. 20.—"A cottage of judicial jackals betrayed the common people of our commonwealth, prostituted themselves and their offices they held and paid them the money interests, their pieces of silver for the job they gave them, by rendering this judgment on the constitutionality of the law, which they set aside."

This was the charge of John Walker, president of the United Mine Workers of Illinois, in his annual report to the convention at its opening in the state arsenal here this morning, with reference to the "Tanner act" which the supreme court of Illinois found unconstitutional in a decision handed down April 19, 1911.

President Walker also strongly denounced Thomas Lewis of Ohio, ex-president of the United Mine Workers of America, because he said he arranged an agreement between the miners and operators without consulting the officers of the mine workers of Illinois, following which a report was circulated that such an agreement between the operators and miners had been reached and that there would be no trouble April 1. The action of the ex-president, will, it is feared, bring about discussions which will hinder the peaceful settlement of questions affecting the operator and miner.

Duncan McDonald Answers Critics. Repudiation of attacks against him, which he said were made by a coterie of salary grabbers, paymaster and office seekers, was made by Duncan McDonald, secretary-treasurer of the association, in his annual report to the convention in the afternoon session. In response to a challenge to anyone to show where any of the reports circulated were true, J. L. Lewis of Panama, arose and stated that he would show the convention where the secretary-treasurer had used funds belonging to the organization for other uses than those of the association. A point of order was called and Mr. Lewis was asked to save his remarks for the time when the reports on the committee on officers' reports will be made, which will probably be some time tomorrow. An interesting discussion is expected at this time, and Secretary McDonald is expected to give proof of his contentions that the charges made against him are not true, to which effect he made a statement prior to the completion of his report.

Initiative and Referendum Endorsed. The initiative and referendum will probably receive the strong endorsement of the convention before it adjourns. The report of the legislative committee made this afternoon attributes its failure to pass the last general assembly to the fact that representatives from Cook county either voted in opposition to it or failed to vote at all. The report recommends the Cook county district a good field for missionary work in securing the support of representatives on questions of interest to labor.

President Walker's report is chiefly devoted to a consideration of the Tanner bill which provided that a concern or individual against whom a strike has been declared could not import labor from a foreign state without informing that labor that a strike was in progress and could not import labor from such foreign states, under guard.

ITALIAN CAMMORIST. Man Accused of Murder Arrested in Chicago. Chicago, Feb. 20.—Guspeppe Maralusa, said to be an Italian Cammormist and charged by the Italian government with the murder of a little son of a wealthy Italian, was taken before United States Commissioner Mark A. Foote on extradition proceedings brought by the Italian consul, Count Sabbione.

Commissioner Foote decided to hear evidence in the case, while attorneys for the defendant demanded proof of identification. Count Sabbione said Maralusa had been tried and convicted and sentenced to life imprisonment for the murder of 10-year-old Eduardo Di Martino, son of a wealthy manufacturer, at Prizzi, in 1909. The conviction and sentence had been imposed under the Italian law in Maralusa's absence.

NO MORE HOPPLES

Ruling Made by Trotting Association—Rule Changed Regarding Points.

Chicago, Feb. 20.—Members of the American Trotting association at their biennial meeting today made drastic rulings against the use of hopples. The association ruled that hopples will not be allowed on any horse four years old or under during coming racing season or any horse five years old or under, during 1912. Or on any horse six years old during 1913. This action with a change of rule regarding points was the principal business decided by the meeting. The rule on points stipulated that the winner of two heats in a two in three race or the winner of three heats in a five heat race shall be entitled to first money. The horse having the smallest total number of points in the summary is entitled to second money and the next smallest to third money, and the next to fourth money. A dead heat shall count one for each horse making it and in deciding a dead heat horses starting shall be divided into first and second money, according to position. These officers were elected:

President—W. P. Jiams, Terre Haute, Ind.
Vice President—Thomas H. Gill, Milwaukee.

TRIAL OF PACKERS

Telegrams Read to Jury Showing Defendants Urged Higher Prices for Dressed Beef.

Chicago, Feb. 20.—Several hundred private telegrams sent by Morris & Co. to eastern representatives urging higher prices for dressed beef were read to the jury in the packers' trial today by Government Counsel Pierce Butler.

The defense made a determined effort to exclude the messages on the ground that the signatures of Louis H. Heyman, one of the defendants, and D. M. Knight's assistant manager of the dressed beef department were typewritten and were improperly identified. Judge Carpenter overruled the objection and permitted the telegrams to be put in evidence. The messages were put in in July and August, 1910, and were sent over the private wires of Morris & Co.

The government contends that the telegrams show that the test case was the basis used in fixing the selling price of the beef and that the figures were controlled from the Chicago office. Nearly the entire day was taken up with the reading of the telegrams of Morris & Co., which were identified by William B. Elbert, margin clerk in the dressed beef department. The examination of the witness had not been concluded when court adjourned.

CABINET CONSIDERS COLOMBIAN AFFAIRS

U. S. WILL NOT ASK RECALL OF MINISTER OSPINA.

Full Explanation of Government Attitude Cabled to Bogota—Knox Would Be Welcome in Mexico and Nicaragua.

Washington, Feb. 21.—President Taft took up the Colombian situation with his cabinet today and after discussing it with Under-Secretary Wilson, the acting secretary of state. No official announcement was made of what action had been taken by this government. It was declared authoritatively that the United States did not contemplate asking for the recall of Senor Ospina, the Colombian minister.

A report was current that a full explanation of the attitude of the United States in the present controversy had been cabled to American Minister Du Bois at Bogota so that he might informally advise Colombia.

It is believed that the Colombian government now will learn from Mr. Du Bois that Secretary Knox did intend the initiation of some negotiations which might terminate the troubled relations which grew out of the revolt of Panama from Colombia. Whether in view of such information, Colombia might issue a special invitation to Mr. Knox is said to be based on the character of the negotiations which he would begin the Colombian government has been most insistent on arbitration through The Hague tribunal rather than any bi-partisan commission of diplomats.

It is taken for granted here that the Colombian foreign office is well informed of the developments in connection with Minister Ospina's letter. A special invitation to Mr. Knox, though not expected here, would necessitate no change in the plans for his tour, provision having been made for a stop at Cartagena if Colombia were disposed to desire it. Discussion of the situation in Mexico and Nicaragua in connection with the Knox trip today brought out a statement from the Mexican ambassador that his country would welcome the secretary while Dr. Salvador Carrillo, the Nicaraguan minister, declared that enemies of the administration in his country, notably those once in the employ of Zelaya were circulating false reports of conditions in Nicaragua and giving to the world a false picture of the situation. He asserted that Nicaragua welcomed the moral support of the United States.

ROOSEVELT AS WITNESS.

May be Called to Testify in Case Against Ray.

Washington, Feb. 20.—Former President Roosevelt as a witness in the Ray case, was one of the possibilities developed today in the investigation which the house committee on expenditures in the war department is making into the charges which have been made against Major B. B. Ray, an army paymaster. The committee has already decided to subpoena Charles P. Taft, of Cincinnati, brother of President Taft, and Representative Diefenderfer today declared in favor of calling Roosevelt. The subpoena of Charles P. Taft and the suggestion that Col. They also have agreed upon a general domestic rate of twelve cents and a maximum package of eleven pounds. They would also provide for a rural parcels post, the rate to be five cents for one pound and two cents for each additional pound. The provisions will be incorporated in the bill to be reported to the house some time next week but the exact wording of the provisions has not been framed. It was reported tonight that some Republican members of the committee would approve the recommendations and that the bill would pass the house.

Members of the committee expect, however, to encounter some objection on the ground that new legislation is proposed in an appropriation bill. The parcels post fight has been on in congress for years. Secretary MacVeagh today sent to congress an estimate of the postmaster general of \$400,000 for operating the postal savings banks during the next fiscal year, in addition to the unexpended \$500,000 appropriation last year.

North Adams, Mass., Feb. 20.—Two trainmen are dead, two are missing and Hoosac tunnel is so effectively blocked that it may be 24 hours before the tracks will be cleared as the result of a rear-end collision between a freight train and a Boston bound express on the Boston & Maine railroad late today.

The passenger train was not seriously damaged, with the exception of the electric engine which was drawing it, but several cars of the freight were demolished and the wreckage took fire.

The smoke pouring from the east portal of the tunnel drove back those who sought entrance from that end, while the heat made it impossible to go beyond the central shaft from the other end.

Hours after the crash the wreckage was still burning.

The heat was so great that portions of the tunnel rock were cracked off and fell to the tracks.

AVIATOR FLEW ACROSS THE SKY

Earl Sandt Traveled in Air From Erie to Port Rowan—Starts on Return Trip and is Missing.

Erie, Pa., Feb. 20.—Earl Sandt, aged 23, an aviator of this city, made a flight from Erie to Port Rowan, Canada, over frozen Lake Erie late today. At 5:55 p. m. he started from the Canadian shore for this place, but up to 8 o'clock, to night had not arrived. Searching parties have started to cross the lake.

Sandt is claimed to be the first aviator to cross the inland seas. The trip was made in 34 minutes. He was 2:41 by the aviator's watch when he took to the air here and at 4:30 he telephoned friends from Port Rowan, Canada, that he had landed at 3:15.

In coming to the United States, Sandt broke a rib in his diaphragm, but the damage was not serious. Shortly before 6 o'clock a telephone message from the Canadian shore announced that Sandt had departed for the American shore at 5:50.

Aviator Found. The return flight and while high in the air the engine stopped and he fell about ten miles out on the coast of North East, Pa., about 3:00 p. m.

He was gliding toward the ice, when suddenly the machine turned turtle, and Sandt was buried unconscious in the wreckage. How long he remained in this condition Sandt does not know. When he recovered he was literally saturated with blood from many cuts. Aided by a pocket compass, Sandt walked 10 miles to the American shore, reaching North East at 10 o'clock to night. He was found staggering along the shore and later carried to a hotel, and word telephoned here.

Sandt is not seriously injured. He was brought here from North East at midnight in a special car. Thousands of persons, a brass band and loud blasts from shop whistles greeted him.

ARE SENTENCED FOR CONTEMPT

Woman and Chicago Lawyer Who Suppressed Evidence Must Pay the Penalty.

Chicago, Feb. 20.—Mrs. Alleen Christopher and Attorney John A. Brown were committed to jail here today to serve sentences for contempt in the United States court. Their imprisonment is an outgrowth of the investigation of the alleged black trust about a year ago. Mrs. Christopher was said to have received commissions from a Galesburg brick company while her husband, as a public official, was interested in placing contracts.

Her sentence for contempt resulted when she refused to submit certain checks and documentary evidence called for by a federal grand jury.

Attorney Brown was charged with shielding Mrs. Christopher. The checks and papers were later found in Mrs. Christopher's possession.

Judge K. M. Landis sentenced Mrs. Christopher to serve thirty days in the house of correction. Brown was sentenced to serve seventy days in the county jail. The case was carried to the United States circuit court of appeals, which confirmed Judge Landis' sentence.

STEPHENSON BILL USED TO OBSTRUCT

PREVENTS CONSIDERATION OF CONFEDERATE MEASURE.

Senators Think Too Much Sectional Feeling Has Been Displayed During Discussion of Monument Bill—Other Washington News.

Washington, Feb. 20.—The senate today made effectual use of the Stephenson election case to prevent consideration of the bill authorizing the erection of a confederate monument in the National Military park at Vicksburg, Miss.

The bill occupies second place on the senate business calendar and Senator Williams of Mississippi was prepared to move consideration. Since the sharp tilt of ten days ago between Senators Williams and Heyburn over that measure a number of senators have felt that too much sectional feeling had been displayed to permit it to come up again.

The Stephenson case supplied the only available material for obstruction. No senator desired to speak on it, but the voluminous reports were called into play and their reading was not concluded when the senate adjourned. Senator Williams accepted the situation philosophically.

Silk Stockings vs. Sugar. The ways and means committee intends to try to make the wearers of silk stockings and other expensive imported clothing make up for the duties the government would lose by free sugar.

Sugar in the free list would keep \$60,000,000 a year out of the treasury. On Saturday the committee will consider taking the duty off of sugar and putting it on stockings and other fancy things.

Chairman Underwood says a sugar bill will be reported in a few weeks, though its terms have not been fixed upon. He hopes to raise the revenue which will be lost has put the committee in a quandary.

LAXITY OF BANKING LAWS.

Member of Legislature Writes to Governor Deneen on Subject.

Chicago, Feb. 20.—State Representative Richard P. Hagan of the sixth senatorial district today sent a letter to Governor Deneen asking in case the governor calls a special session of the legislature, that the subject of private banks be included in the questions to be considered at a special session.

"Under existing laws in Illinois," Mr. Hagan says in his letter, "a single individual or group may engage in the banking business without any inspection or regulation by the state authorities."

"Any person, regardless of what his purposes can be, may open a bank and receive deposits. An imposing office and fixtures frequently take the place of capital."

"The recent closing of a one-man bank in the district which I represent and the hardship to the depositors is an example of the laxity of Illinois laws."

TEACHERS MEET.

Monthly Gathering Held at the Home of Miss Helen Caffy.

The February meeting of the teachers of the public schools was held Tuesday evening at the home of Miss Helen Caffy, with a good attendance of members.

The discussion was on Prof. Mayer Bloomfield's monograph on "Vocational Guidance of Youth." Prof. Bloomfield is employed by the city of Boston to assist the high school pupils in finding their vocations or what work they are best fitted to do. Along this line the public schools of the city are carrying on a great reformatory. The teacher, however, is not to say to a pupil, "This is your life work," but to show the pupil what they are best fitted for and lead them to choose for themselves. The subject has become of great prominence that Harvard University has opened a special summer course along this line in

the case of Prof. Bloomfield, who is an expert in the work.

His book is divided into four chapters and the first half last night was presented by Prof. Cook and the second half by Prof. Bate, who handled the subject in a capable manner. This was followed by a lively hour's discussion.

A social hour followed and games in keeping with Washington's birthday occupied the attention of the guests for a short time. Miss Jeanette Russell was the lucky prize winner in "what's the ending." Substantial refreshments were served.

Principal R. O. Stoops will be the lecturer for the March meeting and the subject will be "Measurements of the People's Advancement."

WASHINGTON BIRTHDAY SUPPER.
A Washington birthday supper was given Tuesday night in the parlors of Westminster church and it was liberally patronized. Beginning at 5:30 o'clock a very excellent menu was served. The ladies presiding at the tables were gowned in Colonial styles and the table decorations were suggestive of the Washington birthday anniversary. Harold Johnson's orchestra furnished a delightful program of music during the evening.

Mrs. John R. Robertson was chairman of the committee of arrangements and was ably assisted by others and by a corps of very competent waiters. Misses Grace Carter, Jessie Holmes, Claire and Anna Stevenson, Ellen Brooks and Agnes Rogerson.

The Art of Building

Do you expect to live in your house when you build it—spend the rest of your days in it and leave to your children, a more valuable property than when you built it?

The Right Materials

You know not how unwise it is to use poor materials, and so the real "art in building" is in choosing the best lumber, the best of everything which enters into the constructive work. If you want to build in a way that will stand the test of time we can solve the LUMBER question for you.

SOCIAL EVENTS.

The February meeting of the Woman's Missionary society of the Pisgah Presbyterian church at Orleans was held Tuesday afternoon at the home of Mr. and Mrs. James Dobyns, the hostesses being Mrs. Dobyns, Mrs. Sheppard and Mrs. Walter. There was a fair attendance and the meeting was a very interesting and helpful one. Mrs. Thornton conducted the devotional service after which Mrs. Bennett gave a vocal solo. "The Indian" was the subject of a very interesting paper presented by Mrs. Stevenson and this was followed by a discussion on "The Place and Destiny of the Indian in the Nation," in which all took part. In the roll call those present responded by answering the question "Why Am I Interested in Missions?" Following the program a delightful luncheon was served by the hostesses.

The members of the East Side Tuesday club and their invited friends were delightfully entertained Tuesday afternoon at the home of Mrs. L. E. Fisher in the Cherry apartment building. The hostesses being Mrs. Fisher and Mrs. A. B. Williamson. The affair was in the nature of a valentine party and Mrs. Fisher's rooms were prettily decorated with strings of hearts and arrows and bouquets of carnations. As the ladies entered the reception room each drew from a Jack Horner bag a favor predicting her future. A heart guessing contest followed and the prize awarded was a pretty heart shaped box of bon-bons, this being won by Mrs. W. S. Badger. A heart shooting contest and other games were enjoyed. Elegant refreshments were served by the hostesses assisted by Mrs. Brockman, Mrs. Baldwin and Mrs. Laning. The party was postponed from last week on account of sorrow in the family of one of the members.

The Mission Study circle of the Congregational church held a delightful meeting Tuesday night at the home of Miss Georgia Fairbank on Grove street. There was a good attendance and the leader was Mrs. W. A. Furr, who in a very interesting and impressive talk completed the study of "India's Awakening." Mrs. Lucy Doane and Misses Dorothy Furr and Carolyn Doane appeared in costume, representing the dress of the women of India, and assisted in the serving of refreshments, which consisted of Ceylon tea, rice, chicken and curry, a genuine India menu. In one of the rooms of the Fairbank home was displayed an excellent collection of curios, which had been received from the Fairbank family in India. This collection included pictures, books, trinkets, idols, wood and ivory carvings and many other curios, and it also furnished an interesting study.

Mr. and Mrs. Gregory Clemmons entertained at a five course dinner Tuesday evening at their home on South Church street, in honor of Mr. and Mrs. Elmer Roberts, the account of whose marriage was given in the Journal of Tuesday. The decorations were principally in henns, carnations also being used with pretty effect, and the appointments in every way were such as to make the occasion one of great pleasure. Mr. and Mrs. H. H. Cuffin of Virden, parents of Mrs. Roberts, were present and Mrs. Chaffin assisted Mrs. Clemmons in the entertaining. The guests were limited to intimate friends. Mr. and Mrs. Chaffin returned last night to Virden, but the bride and groom will remain in the city for a visit of several days with friends.

The marriage of Samuel Strauss of this city and Miss Evaline Olan of Springfield will take place March 5 in St. Louis. The bride is a sister of J. L. Olan of Jacksonville.

Mr. and Mrs. Thomas Mandeville were most pleasantly reminded of the twenty-fifth anniversary of their marriage last Monday evening, when a party of about fifty of their friends and relatives abruptly announced themselves at their residence, south of the city. A great part of the evening was delightfully spent in progressive euchre, prizes being won by Mrs. Peter McCabe and Earl Woulfe, while practical consolation was accorded to Miss Birdie O'Brien and John Wahl. After refreshments were abundantly served, singing and musical numbers added greatly to the enjoyment of all. It was at a

late hour that all the guests wished Mr. and Mrs. Mandeville a return of the delightful and memorable occasion.

The members of the Phillathe Circle of the Central Christian church gave a supper last night in the basement of the church, which was largely attended. A fine menu was served to over 250 people, including the members and a neat sum was realized, which will be used for some benevolent cause of the organization. Red and white were the colors used in decorating the tables and much of the success of the affair is due to the president of the class, Miss Margaret Coffman; vice president, Mrs. Mabel Dunavan and the teacher, Miss Mary Dewees, also the following, Pearl Jewsbury of the decorating committee, Gertrude Roedersholmer, Mrs. Rena Jonquin, Altha Roberts, Lydia Brown, Harriett Davis and Flossie Cobb.

SPOONTS WANTS THOUSAND MEN

Northminster Pastor Lays Great Plans for Sunday Afternoon Meeting—Service Last Night the Equal of Sunday.

Spoonstons. A coquette is a woman without any heart, who makes a fool of a man that hasn't got any head.

A coquette is a young lady of more beauty than sense, more accomplishments than learning, more charms of person than graces of mind, more admirers than friends, more fools than wise men for attendants.

A beautiful and chaste woman is a perfect workmanship of God, the true glory of angels, the rare miracle of earth and the sole wonder of the world.

Next to God we are indebted to women, first for life itself and then for making it worth having.

The deepest tenderness a woman can show a man is to help him to do his duty.

The saddest thing that can befall a soul is when it loses faith in God and woman.

Rev. Walter E. Spoonstons has asked for one thousand men for the service to be held in Northminster church next Sunday afternoon and it would seem strange if the big desire of the great hearted pastor-evangelist were not realized. In the beginning of his revival Mr. Spoonstons said that he would have at least one hundred new members for his church before the meetings closed. This was said with the same faith and prayerful thoughtfulness as the request made last night. The meeting Sunday afternoon will be in the interests of the Men and Religion Forward movement and the address will be delivered by George T. Coxhead of St. Louis.

The church was crowded last night to hear Rev. Mr. Spoonstons preach from the novel theme "Girls Meaner Than Boys." There was much singing in the service and several special numbers gave added interest. The quartet sang "One Sweetly Solemn Thought" and "Where Is My Wandering Boy Tonight?" Carl Sntreter sang in German that inspiring hymn "That Will Be Glory for Me" and by request the choir sang "Beautiful Isle of Somewhere."

The opening prayer was by Rev. W. L. Dorgan, pastor of Pleasant street church. In addition to those who occupied pews in the church last night more than a hundred who were unable to attend heard the message in their own homes by means of the large megaphone arranged for telephone service.

This morning at 10 o'clock Rev. Mr. Spoonstons wishes to meet all the men of the church and this afternoon at 2 o'clock the women are asked to be at the church. To night the sermon will be "An Old Time Drama."

The sermon last night was from Isa. 28:17. The pastor said in said in part:

"Numerous are the stratagems of Satan to ruin souls. In some he effects this by hurrying them on in the broad way of open transgression; in others by rendering them victims to some peculiar constitutional sin-pride-avarice; in others by inducing inattention to the things of the soul; in others by inciting a spirit of disbelief of the truth. But our text leads us to contemplate the false refuges to which others betake themselves."

"Sinners often feel the need of a refuge. This arises sometimes from internal sense of guilt; at other times from calamitous events of life or the supposed nearness of death, and oftentimes under the alarming influence of the preached word. Sinners frequently betake themselves to refuges of lies. Such refuges will be ultimately swept away in the drying hour, in the morning of the resurrection and in the decision of the judgment. No one has rejected Christ after seeing Him through life when he came to die."

At the conclusion of the sermon four went forward to begin the better life.

PARTY AT RUDISILL HOME. A party was held recently at the home of Mr. and Mrs. Charles Rudisill of Arendia. A very pleasant time was enjoyed by all present and during the evening delicious refreshments of ice cream, cake and candy were served. Papers with a line drawn on them were passed and each one had to draw something from this line. Ellen Deatherage received first prize and Lillie Lind the second.

Those present were Misses Marie Sayre, Alma Ogile, Cora and Jessie Rudisill, Ellen and Ruth Deatherage, Bertha Lind, Lillie Lind, Nita Austin and Clara Lacey. Messrs. Russell and Lloyd Ogile, Walter and John Young, Charles Brane, Clyde Rudisill, Gayther Austin, Roy Sayre, R. L. Maguire, Mrs. Levi Deatherage, Mrs. Charles Clark and daughter Floy.

FLOWERS FOR SICK. While pastor at White Hall Rev. Hy S. Akire instituted the custom among his church members of bringing a bouquet to the church on the anniversary of the death of loved ones. The flowers, which then contributed to the beauty of the church, were later taken into the homes of the sick or to the hospitals. Rev. Mr. Akire announced Sunday to his congregation at Brooklyn that should the people here wish to follow out the same beautiful custom, he would see that the flowers carried cheer and sunshine into the rooms of the sick.

Delegations will be present from Hannibal, Beardstown, Virginia, Manchester, Glasgow and Winchester and Chief of Records Opperman received word yesterday from Dr. Weakley of Springfield that a large number of braves would come over on the night train. Following the initiation, a light luncheon will be served and a program given. Orin Tandy will make the principal address.

At a dinner given Tuesday night at Peacock Inn, Dr. E. J. Brown of Dentur was the guest of the Medical Library Association of Morgan county. All members of the Morgan County Medical association were also invited to be present and great interest attached to Dr. Brown's address on "The Medical Library and its Uses."

Rectal Ouderlies are eaten just like candy. Rectal Ouderlies are unassailable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we bank our faith in them with our surplus of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 24 tablets 25 cents and 50 tablets 50 cents. Renting Houses

Fifteen years experience as the only Agency in Jacksonville making a specialty of renting houses, has given us much information that is of value to our clients. We have learned how to write a contract that will insure the payment of the rent when due. In five years we have not lost a full month's rent on any house. We know what consideration is due to the tenants; they say we are "good landlords," and our houses are full when others are empty. Only those who do not want to pay their rent dislike us. We have an enormous rent list, but very few vacant houses today. We can be of real service to you in renting yours. Won't you let us do so?

MUNICIPAL AFFAIRS.

At an early meeting of the city council Mayor Davis will bring up the matter of going before the people to ask for a bond issue of \$55,000 to rehabilitate the city electric light plant. This question has been talked over by the mayor and commissioners for some time and Commissioner Brown has been at work upon the plans. The purpose is to outline a proposition for re-equipping the light plant in such a way that power can be furnished for the city pumping station and for the Widenham-Daub wells if they are used. Such an arrangement would reduce the operating expenses of the water department as fuel cost would be done away with at the pumping station and the number of employees could be lessened. So far as the light plant is concerned there can be no doubt that it needs rehabilitation. For a long time the plant has been overloaded, carrying more lights than there is power to supply. The equipment is, to a large extent, worn out and some of it is obsolete in pattern. The plant is really in such condition that great care has to be used in the manner of operation in order to keep the machinery in usable order.

If the matter of a bond issue comes before the people and is carried, resulting in increasing the efficiency of the light plant it is likely that residents may have an opportunity to have boulevard lamps in residence districts. Commissioner Knollenberg said yesterday that he thought it would be a good idea for the city to offer to furnish current for such lamps if citizens would pay for the equipment. Boulevard lamps would give a very "civilized" appearance to a number of residence districts.

The recent activity of the police department in arresting owners of vehicles who have failed to pay the vehicle license has caused a good many persons to apply at the office of the city clerk for "tags." The license has been due now for several weeks and notices have been published of the fact, but nevertheless a large number of vehicle owners have given the matter little or no thought. Now, however, the news that police department is already getting busy in looking up delinquents, those who have overlooked or forgotten about the tax are now digging up the sums required.

Canvassers for the Jacksonville Gas company, seeking signatures of property owners who are willing to unite in a petition for authority to be given the company to use streets for gas mains, find people occasionally who will not sign. The refusal, however, usually results from a misunderstanding of what the petition really means. Gas mains are under a great many of the streets now and no doubt everybody wants the service thus afforded continued.

Commissioner Brown recently spent a day in Cairo mainly for the purpose of observing the working of one man street cars such as are made possible for Jacksonville by the proposed railway from the Illinois Traction company owns the street railway in Cairo and has used the one man cars there for some time very satisfactorily. Persons enter and leave the car at the front end where the motorman is located and each person must have his fare ready as he steps on the platform. Mr. Brown said the cars are about twelve to eighteen inches wider than those in service here and that there seemed to be no congestion in taking on and unloading passengers. Flow-on conditions in Cairo are not just like those here from the fact that the business district there is greatly scattered. It happens therefore that shoppers there get on the cars at widely varying points while in this city the great majority enter cars at two or three points. Mr. Brown could see some advantages and some faults in the cars from a Jacksonville viewpoint.

YOU remember, maybe, that story about Mark Twain, who said he was a bigger man than George Washington; because while George "couldn't tell a lie," Mark could but wouldn't.

Washington's fame is secure because he did what he thought was best for all; and his judgment was good; personal profit or advantage didn't sway him.

Her maiden name was Amelia S. Koss and she was born in Beardstown Oct. 22, 1853, and was united in marriage to L. C. Hackman April 1, 1880. AT SOCIALISTS HALL

Mr. Untermyer of Idaho Gave Transcript of the Issues That Present Themselves to the People for Solution.

People listened, with the closest attention to Mr. Untermyer's presentation of the vital problems that effect present day society in his address, given to a large sized audience at Socialist hall last night. A rare scholar in many hands, his orator traveler in many of languages and his varied experiences, covering a period of many years, enables him to present the serious problems of life in an interesting form. He gave an outline of the development of the many-sided forces of modern society, separating the progressive from the reactionary and showing the useful purposes to which even the "undesirable" and inhuman conditions could be utilized in the rebuilding of better and more desirable social forms.

In accordance with his subject, "Why Things Happen to Happen" — Mr. Untermyer gave his attention to a disproof of the so-called "accidental happenings" and endeavored to prove in accordance with the accepted idea of progressive evolution that all industrial social and political changes were the result of forces inherent in preceding forms.

He gave an exhaustive explanation of why the international Socialists movement plants its banner and builds its propaganda, upon the theory of material interest.

He endeavored to show that the power possessed, either by an individual, a group, or by the state, was co-ordinate with the amount of wealth they owned or controlled, directly or indirectly, and that the actions of mankind, were, as a whole, dependent at all times upon material interests.

In proof of that, he cited the development of the labor saving machine that made Socialized production necessary and said that simplified and specialized methods had greatly lessened the amount of labor power necessary in modern production and by the employment of women and children had greatly lessened the cost of production without having been of any benefit to the working class.

He cited the logic of history in proof the fact that those who control the wealth of a nation control its politics, its social form, its morals, and its religion, and showed the working class that, as they had produced all wealth and had transferred it, under the influence of "honest and patriotic illusion," by means of rent, interest, rent and profit, to the possession of the idlers, who are the most expensive, as well as the most useless of the many burdens of the workers; that they had also transferred their sovereign power, as crystallized in the product of their labour into the possession of those whose material interests functioned at the opposite extreme of the class conflict. Strikes, lock-outs, boycotts, the blacklisting of workmen, the useless and criminal sacrifices of countless thousands annually upon the industrial battlefields, were eloquent of the consciousness by owning class of their interest, when the lives and safety of the workers were weighed in the scales of owning class justice, in contrast to the greed for increased dividends.

Mr. Untermyer held that the class conflicts were growing so intense and that things were "happening" so rapidly that the people would be compelled to adopt Socialism, which is the social ownership of the things that are specially used—all of the useful forces of production that require associated labor, in order that the existence of government and society might be preserved from chaos. He said that "Socialism is the only logical solution to the many problems and the many conflicts of the present day and that the necessary evolution of forms of government in keeping with the progress of industrial development, made its adoption inevitable. That in fact it was rather a destiny than a doctrine." He said: "Socialism would do away with all inharmonies incidental to the clash of conflicting interests and would build a society in which the useful members would be the only industrial and political sovereign."

Mr. Untermyer said that "Socialism would destroy the tramps, the parasite, and every form of idleness, and would rebuild the homes of the working class." That it would take the children from the factories and sweatshops and place them in the schoolroom, making of them intelligent, healthy and useful citizens.

The next speaker on the course will be R. A. Maynard of the Rocky Mountain News, who will speak on February 27, 1912.

in Whitecoats, Fancies and Serges, the colors are mostly in navy blue, cream, tans, greys and King's blue.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do not earthily good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs; it allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

CONVENTION TO BE IN BEARDSTOWN

Democratic Congressional Committee Agrees on Meeting Place—Representation Is Fixed.

The Democratic central committee for the Twentieth congressional district met at the Pacific hotel yesterday with delegates from Morgan, Jersey, Greene, Calhoun, Cass and Brown counties. The counties not represented were Pike, Mason, Menard and Scott.

F. P. Wilson of Greene county, chairman of the central committee, called the meeting to order and C. W. Boston of Morgan was chosen secretary. The chair stated that the object of the meeting was to decide on the place and date for the convention, decide on the number of delegates from each county and to file with the clerk of each county a copy of the proceedings of the convention as provided by law.

There was a bit of rivalry between Jacksonville and Beardstown for the convention and it was evident that the time honored custom of holding the convention in this place was not to be adhered to this time.

H. Serkovich, secretary of the chamber of commerce of Beardstown, placed that city in nomination, while County Clerk Horuff called attention to the desirability of Jacksonville as a place for meeting. Each seemed to lay stress on the fact that his county, especially needed the political stimulus which would arise from having the convention within its borders.

Frank Traut, who called attention to the fact that it was twenty years since Beardstown had been honored by the holding of a Democratic congressional in its limits and it was getting time it was remembered.

Mr. Horuff and Mr. Boston were equally strenuous in setting forth the claim of Morgan county, but it was evident that the members were in favor of the metropolis of Cass and when the Morgan county men saw it they decided it would be best to yield gracefully and vote for Beardstown, which they did and made it unanimous and the city hall at Beardstown was chosen as the place and April 17, at 1:30 p. m. the time for the gathering.

Delegates will be as follows: Brown county, 4; Calhoun, 2; Cass, 6; Greene, 5; Jersey, 5; Mason, 6; Menard, 4; Morgan, 10; Pike, 10; Menard, 2; in all 58.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardul, I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardul.

Cardul is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

The Great Convention Here Friday, Saturday and Sunday, Men and Religion Forward Movement.

Attention is again called to the great convention to be held in this city Friday, Saturday and Sunday in the interest of the Men and Religion Forward movement. This is a movement calculated to bring into action for good a vast force which has heretofore been too much dormant. The men of the churches are awakening to their duties and will be grandly aroused by the great movement now in progress.

REV. H. P. SHAW AND WIFE TO BE HERE FRIDAY.

Few if any persons ever left this city and county leaving a more fragrant memory than Rev. and Mrs. H. P. Shaw. For a time Mr. Shaw was the acceptable pastor of Antioch church east of the city and his loss to the church was great. As is well known, the devoted couple went to China as missionaries and did their best to spread the gospel among the people of that far away land and failing health compelled their return, but they are still interested in missions and expect to be here Friday at the missionary rally in the Christian church.

MAKING GOOD RECORD.

Miss Mary Louise Powell, the daughter of Mrs. Mildred Powell, 81 Sandusky street, has been making an honorable record for scholarship at Lake Forest college, where she is now a member of the freshman class. Miss Powell is one of the twelve freshmen who are thus honored in a class of about sixty-five.

OLD FOLKS.

Can Live Longer, Doctor Says.

"One reason old people do not live so long," says a famous physician, "is because they do not keep up their interest in life. They ought not to 'let go'."

But when they are weakened through poor appetite and loss of sleep, you can't expect them to be so much interested in current events. Let them first regain most of their former vigor, by using Vinol, our delicious cod liver oil and iron preparation, on which so many elderly people depend for good health.

According to F. R. Schoen, Justice of the Peace, Elk Mountain, Wyo., his neighbor, Chas. T. Burke, 82 years old, was very sick and ready to give up, but Vinol put him on his feet again and now he says: "Nothing ever helped me like Vinol—I could not do without it."

Vinol is sure to do you good if you are run down and weak—we guarantee this, and will pay back your money if you are not satisfied. Lee P. Alcott, druggist, Jacksonville, Ill.

WILL HOLD RALLY HERE

Foreign Mission Interests of Christian Church Will Hold Conferences Friday—Interesting Program Arranged.

The members of the Central Christian church are looking forward to a great treat next Friday, when the Foreign Missionary rally will be held there. This has come to be an annual event in the life of this congregation and is anxiously looked for. It is the custom to have one of the officers of the Foreign Christian Missionary society, an expert in his own department of work, who will preside and take part in the program. He will bring with him two missionaries, one fresh from China, the place where history is being made today faster than in any quarter of the globe, and one from the celebrated Bolense Station in the very heart of equatorial Africa.

In addition to these men an expert operator of the stereopticon and moving picture machine accompanies the party, and the evening session is filled with pictures of work in every quarter of the globe.

The members of the Christian churches within a radius of fifty miles have been invited in to participate in the rally and many will attend with their pastors. Altogether it will be a day long to be remembered.

The ladies of the Jacksonville church will serve noon luncheon commencing at 10:30 in the church parlors. At 6 p. m. there will be a banquet for men, to be addressed by some of the visiting party. There will be a large display of curios from the mission fields, specially prepared maps and charts, and the latest and best books in print along these lines.

There will be three sessions during the day. The morning session will commence at 10 a. m., the afternoon session at 2 p. m. and the evening session at 7:30 p. m. The public is heartily invited to attend all these sessions; the evening meeting will be exceptionally popular and interesting.

The representative of China in the party is known to many in Morgan county. He is none other than H. P. Shaw, who for five years was pastor of the Christian church at Antioch and whose expenses on the foreign field have been borne by the Central Christian church ever since he left Morgan county to go to China. His many friends will hear him with pleasure next Friday.

The school children are especially invited to come in at 4:15 p. m. to see the strange curios from many lands, which will be shown by the missionaries.

There will be no admission charges at any of the sessions. A free will offering will be taken at night to cover the necessary expenses of the party in coming to Jacksonville. The end desired is educational and inspirational, not the raising of money at this time. For the giving of exact information about conditions in many lands these rallies have been anxiously looked for and the rally next Friday will be distinctly "worth while" to any body who may be able to attend.

And if all other young people's societies will join in for the same cause they will be a great victory won for all Illinois, and let it be said: All Illinois is in the field.

She cannot fly, she will not yield. Let every member feel himself a post.

Let every Christian stand to his post, and united heart and hand. This curse we'll banish from our land.

SUICIDE OF MRS. COHEN.

Jury Fails to Discover Reason Why Woman Ended Life.

Chicago, Feb. 20. A coroner's jury investigation today failed to disclose the cause for the suicide of Mrs. Doris Hammond Cohen, formerly of Bloomington and Springfield, who shot herself Monday.

Louis Cohen of Springfield, the husband, was the principal witness at the inquest. He explained to the coroner's jury that business interests made it imperative for him to live in Springfield, but that his wife preferred to reside in Chicago.

Cohen said that he last saw his wife on Sunday night when he visited her at the hotel where she had apartments.

Cohen said he would carry out his wife's wish regarding the cremation of her body. Mrs. Cohen left a note in which she said she wanted her body cremated.

MILES OF LOADED COAL CARS

Vast Number of Loads Moved by Burlington and Other Roads From Herrin.

The Herrin News in a recent issue tells about the vast number of coal cars moving from Herrin these days. It is estimated that enough cars left the mine one day recently to make up a train five miles long. Herrin is a station on the Burlington in Williamson county in the southern part of state. The News said:

"While other cities, large cities that put on metropolitan airs, may boast of their fast trains, Herrin sings the praises of its heavy cargo of out-going freight. Tuesday a five-mile train left this city. Nearly six hundred freight cars loaded with black diamonds were billed over the three lines of steam roads. It was probably the largest one day's business in freight forwarding ever done here."

"Tuesday was the Burlington railroad's banner day. Three hundred and one large coal cars were loaded and billed out on that day. If all the cars had been made up in a single train it would have measured nearly three miles. As it was it required five capacity trains to drag the coal out of here on its long trip into the far northwest, some going to South Dakota, Minnesota, Iowa and other distant states. Agent Odell and his alert clerical force were busy bodies around the 'Q' station when the big day's business was going on."

"The Illinois Central and the Iron Mountain did a fair business on that day, but were both handicapped for lack of cars. However, all of the lines are getting a larger supply of cars than they were a few weeks ago. The moderating of the weather seems to have loosened up the congestion of traffic and cars are easier to get than they have been. Most all of the mines, though, are still crying out for cars, more cars, and orders are stacked high in every mine office."

"Sunday a big lot of cars came in over the Burlington out of the frozen northwest. There were four hundred and fifty of them all told, and on Monday two hundred and thirteen were loaded out and quickly despatched back to the land of the coal famine. The Burlington has recently connected into two mines south of Herrin in the vicinity of Marion, and received from these two mines, Peabody and Big Muddy, Tuesday, sixty-nine cars. The Rend mine at Rendville, or Weaver, gave the Burlington fifty-one cars Tuesday, a large portion of its yield that day."

EAT WHAT YOU WANT TO EAT!

MILLER'S DYSPEPSIA TABLETS, of a newly discovered medical formula, DO NOT RESTRICT YOUR DIET. It is a remedy that DOES NOT CONTAIN A GRAIN OF MEDICINE TO DIGEST FOOD.

Your Stomach Does Not Require a Medicine to Digest Food

If your stomach fails to properly digest the food you eat, it is in a DISEASED CONDITION and needs a medicine to put it in a condition to perform the functions for which it was given to you.

IF YOUR CHILD SWALLOWED A COPPER PENNY WOULD YOU GIVE IT NITRIC ACID TO DIGEST IT?

Then why put a strong medicine into your stomach as a digester of food when it will IRRITATE and DESTROY its delicate lining? MILLER'S DYSPEPSIA TABLETS act on the stomach like a salve on a sore, by healing. You put a medicine that has no curative power on a sore, and what is the result? A RUNNING SORE. MILLER'S DYSPEPSIA TABLETS HEAL THE DISEASED CELLS that give out the gastric juice that is necessary to aid digestion. When food is taken into a diseased stomach and only part of the cells perform their functions, the result is a fermentation of food which causes palpitation of the heart, which leads the sufferer to suppose that he or she has an affection of that organ, vertigo, nervous tremors, sleeplessness, a tendency to yawn, nightmare, flatulence, heartburn, hot flushes, sour stomach, full and heavy after eating, belching up gas, tenderness over the pit of the stomach and many other symptoms. Unfortunately, the malady disorders the whole system, including biliousness and constipation, and fostering a tendency to nervousness and insomnia. It is also a prolific cause of leanness and want of vigor, both very undesirable conditions. FOR SALE BY ALL DRUGGISTS. Free sample treatment on request from MORRIS DRUG CO., Morris, Ill.

YOUNG MOTHERS

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both herself and the coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby, too, is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores.

Grain Letter.

Local traders expecting a drought were good buyers in response to higher cables and were principally responsible for the early advance. Commission houses selling was liberal on the upturn. May liquidation seems to have commenced unusually early. Primary receipts at over 60,000 were nearly three times as large as a year ago. Weather conditions are excellent for winter wheat in this country and the trade is now looking forward to a new crop factors. With supplies liberal everywhere, cash demand is disappearing and there is no improvement in the flour trade. The general wheat position appears heavy with particular reference to May delivery. Manipulation by disappointed bulls may cause some sharp reactions, but sales of May on hard spots should be profitable. July is relatively cheap and we believe will prove a profitable investment in conservatively bought and well protected contracts.

Corn. Responded some to the early strength in wheat. Scattered shorts were the best buyers. Pit offerings increased on the advance. Receipts a western markets exceeded 1,600,000 bushels and were more than the market could take and three times as large the corresponding day a year ago. There is every prospect of continued heavy receipts and the rapidly increasing stocks, coupled with the decreasing demand, should bring lower prices. We believe May corn sold on hard spots will be profitable.

Oats. Shared moderately with action of the other grains. Pit offerings were not large and commission demand was excellent. In view of the high prices prevailing for all grain feeds, oats seem well worth the current cash prices, while futures at this time are attractive. Should look attractive to the investor. July oats should be particularly attractive.

Provisions. Developed decided weakness under aggressive bear attacks. Scattered liquidation of long product was an important feature. Stocks are heavy and the decline in prices have caused a slackening in demand. There is a large professional short interest. Product is relatively cheap, but continued heavy hog receipts are discouraging to the investor.
